Profile Summary

Senior Frontend Engineer with 7+ years of experience building scalable, high performance, data driven web applications using React, Next.js, and TypeScript. Strong background in complex workflows, personalized user journeys, performance optimization, and experimentation driven product development. Experienced in collaborating with product, design, backend, and QA teams to deliver reliable, accessible, and fast user experiences in healthcare, enterprise, and SaaS platforms.

Core Skills

Frontend

React, Next.js, TypeScript, JavaScript (ES6+), HTML5 / CSS3, MUI, Bootstrap, Tailwind CSS

State & Data

Redux, RTK Query, Redux Saga, REST APIs, GraphQL

UI & Design Systems

Material UI, Storybook, Responsive Design WCAG Accessibility

Dev Practices

Git CI/CD exposure Agile/Scrum Code Reviews

Backend Collaboration

Node.js, Express, Microservices, GraphQL, Rest APIs, MongoDB, MySQL, Python, C, SAP ABAP.

Testing

Jest Component, Testing Integration, Testing, TDD Practices,

Performance

Core Web Vitals Lighthouse Audits Code Splitting Lazy Loading Bundle Optimization

Professional Experience

Toptal (Client: Endpoint Clinical / Elosity Platform), 03/2023 – Present | Remote
Senior Frontend Engineer

- Built and maintained production grade React and Next.js applications supporting complex, data driven clinical workflows used by global medical teams.
- Implemented server side rendering and optimized routing strategies in Next.js to improve initial load performance and perceived responsiveness.
- Developed personalized, role based user journeys driven by dynamic API and GraphQL data sources.
- Designed scalable component systems using React, TypeScript, MUI, and Storybook, improving development speed and UI consistency.
- Improved Core Web Vitals through code splitting, lazy loading, memoization, and optimized API payload handling.
- Implemented frontend monitoring using Lighthouse and Web Vitals and proactively fixed performance regressions.
- Wrote and maintained unit and integration tests using Jest to ensure stability of business critical workflows.
- Collaborated daily with product managers, designers, backend engineers, and QA to iterate on UX and reduce workflow friction.
- Mentored junior developers and led refactoring initiatives to reduce technical debt.

Cognizant, *React Developer*

08/2021 – 03/2023

- Built enterprise React applications handling role based authentication and multi step business workflows.
- Implemented form validation, API integration, and dynamic UI rendering for data heavy modules.
- Debugged and optimized frontend performance issues impacting production stability and usability.
- Worked closely with backend teams to align API contracts and ensure reliable data flow.

Aapna Infotech, *Full Stack Developer*

12/2020 – 08/2021

- Developed frontend interfaces using React and backend services using Node.js and GraphQL.
- Built secure data migration tools transferring large datasets between CRM platforms (Salesforce to HubSpot).
- Designed microservice based APIs supporting scalable frontend feature development.
- Implemented authentication, RBAC, and secure API integrations.

Tata Steel Long Products Limited, *Application Developer*

08/2018 – 12/2020

- Developed internal workflow and ticketing systems used across multiple departments.
- Designed frontend architecture and business workflows from scratch based on stakeholder requirements.
- Integrated SAP and MS SQL data into analytics dashboards for operational reporting.

Selected Projects

Elosity Flash (Healthcare Platform)

Multi step drug approval workflows, reviewer dashboards, audit friendly UI, global user base.

Digital Insurance Platform

Online insurance purchase flows using React, event driven backend services, and real time updates.

Data Migration Tool

Secure UI and backend services for transferring customer data between platforms using JWT authentication.

Enterprise Form Management System (Apple Education Program)

Complex submission and scoring workflows with admin dashboards.

Education

Bachelor of Technology (B.Tech) in Information Technology
(74.9%)

2014 – 2018

College/University : B.I.T Sindri, Dhanbad
